ecology
AI learning
scientific discipline
terraforming
etiology
nanotechnology
science
the mechanics of firearms
the chemistry of gunpowder
topics in technology
the science of oil lamps
the biology of high yield grain
the workings of computers
the workings of irrigation
hit and run tactic
first strike tactic
fright tactic
self-destruct tactic
military tactics
defensive tactics
passive lure tactic
sneak attack tactic
send a scout tactic
military secrets
military brinkmanship
agility vs. strength
brains vs. braun
flee to fight another day
scorched earth
the art of war
defection
the importance of not displaying weakness
military strategy
the domain of man
the psychology of torture
the instinct for violence
the qualities of a good leader
the nature of persuasion
the nature of individuality
the nature of men
the human mind and big numbers
the art of flattery
the nature of human emotions
admiration for strength
the art of smalltalk
the nature of death
human nature
the nature of grief
the nature of children
the nature of conflict
the nature of human perception of time
the nature of humor
the nature of friendship
the nature of love
the nature of sneezing
the nature of the senses
the nature of the subconscious
the nature of torture
the nature of war
the reasons for playing games
the theater
stand up comedy
tap dancing
literature appreciation
music appreciation
painting
acting
art criticism
meaning in art
poetry
the arts
sculpture
calligraphy
art appreciation
theater of the absurd
meaning in music
there is no such thing as a free lunch
the greatest among us is the smallest in another world
one man's terrorist is another man's freedom fighter
there are no shortcuts in life
legends sometimes have a basis in fact
there is value in diversity
one cannot cheat fate
it's good to die at 75 years of age
there is always a third course
he who laughs last laughs best
we're not so different after all
there is value in redundancy
people can change
evil can come in the guise of beauty
carpe diem
perception is reality
war is petty
ignorance is bliss
appearances can be deceiving
you have to take chances to get ahead
love conquers all
a danger shared can bring people together
war is sometimes justified
evil needs followers
power corrupts
secrets are fleeting
words of wisdom
hate begets hate
be careful what you wish for
hatred unites
beauty is in the eye of the beholder
first impressions last
when in Rome
don't judge prematurely
good is stronger than evil
living underground is not natural
he will triumph who knows when to fight and when not to fight
there is weakness in conformism
two heads are better than one
if we adopt the way of the enemy we become the enemy
what is ugly might still be good
love does not transcend all bounds
people may not always live up to their reputations
reliance on a single point of failure is unwise
the winners write history
there is value in experience
true beauty comes from within
we need our darker emotions but in moderation
you can't force someone to love you
the domain of faith
the value of product testing
theory vs. practice
the value of basic calculus
the value of pi
probabilistic reasoning
speed of light limitation
human body composition
the butterfly effect
planet hunting
geometric growth
randomization
soliton wave
grand unification theory
general relativity
light refraction
Fermat's last theorem
Lagrange point
generation loss
deductive reasoning
logarithmic scale
cell division
symbiosis
non-linear effects
skill vs. random chance
topics in science
the placebo effect
distance to orbit
Fourier series
evolution
simulation of a mathematical model
The Copernican Principle
asteroid deflection
the science of anti-matter
exponential growth
counterfactuals
the seeding of space with life
diverging humanoid evolution
prime numbers
encoding a message in DNA
scientific methodology
the science of the greenhouse effect
the logic of reverse psychology
the value of testing a hypothesis
the vastness of the universe
transcendental numbers
the promised land
